About Motion Industries

Motion Industries, a leading distributor of quality products and services to 150,000 industrial customers in North America, operates in the MRO, (maintenance repair and operating) replacement parts market as well as the OEM market (Original Equipment Manufacturer or Equipment and Machinery) which comprises a significant growing segment of the company's sales.

Motion Industries became a wholly owned subsidiary of Genuine Parts Company in 1976 and currently accounts for 34% of GPC's total revenues with \$4.43 billion USD sales in 2013.

Motion Industries serves its local markets through a network of over 560 locations including 511 branches, 15 distribution centers and 42 service centers throughout the United States, Canada and Mexico. Through this extensive operating network, our customers have access to over 5.6 million quality parts, sourced from a global manufacturing base.

- Wholly Owned Subsidiary of Genuine Parts Company
- GPC is a Fortune 200 Company
- \$4.43 Billion 2013 MI Sales
- OEM Sales account for a significant growing market
- Proven track record with more than 65 years in the industry
- Leader in a large and diverse industry
- Highly developed supply chain and logistical capabilities
- State-of-the-art e-business technology
- Broad and deep inventories representing major brands
- Continuous service improvement through original, advanced systems
